

Early career researcher/student (virtual) £40
Members with certificate of membership (Virtual) £60

Members are expected to present evidence of payment of annual registration fee for consideration.

Payment should be made into the Organisation account with the following UBA BANK account details:

DOMICILIARY ACCOUNT (£):

UBA Account number: **3005104519**

Account name: **Netlink Environmental Conservation Organisation**

NAIRA ACCOUNT(N)

Account Name: **Netlink Environmental Conservation Organisation**

Account Number: **2099734495**

Kindly Indicate as applicable:

Are attending the early career researchers training workshop:
Yes ☐ No ☐

Are submitting manuscript for presentation or if you are presenting poster Yes ☐ No ☐

Acceptance letter will be issued at the confirmation of payment receipt by the organiser

Participants are entitled to brunch and crunch, conference proceedings (in soft copy format, which will be uploaded on the organisation's website - <https://www.necorn.org/>) and bags as well .

● **ACCOMMODATION**

Participants are expected to select and pay for any of these accommodation facilities (it is compulsory):

1. **Lord Nelson Hotel**

https://lordnelsonliverpool.co.uk/?utm_source=copilot.com

2. **International Inn**

https://www.internationalinn.co.uk/?utm_source=google&utm_medium=wix_google_business_profile&utm_campaign=4769026632407107405

3. **PH -Hotels** <https://www.ph-hostels.com/>

● **ORGANIZERS**

- Netlink Environmental Conservation Organisation
- Liverpool John Moores University, Liverpool
- Second Life-NGO
- Federal University of Technology, Akure.

● **CHAIRMAN SCIENTIFIC COMMITTEE**

Prof. Samuel O. Agele

*Department of Crop, Soil and Pest Management
Federal University of Technology, Akure*

● **KEYNOTE SPEAKER**

Dr. Ibrahim Musa Goni
*Conservator General
National Park Service, Nigeria*

● **GUEST SPEAKER**

Dr. Shola Osinaike
*Head of Tourism, Hospitality, Event and Marketing
School of Business, Law and Policing,
Canterbury Christ Church University, UK.*

● **LOC CHAIRPERSON**

Dr. Adenike Adebayo
*Department of International Tourism Mgt. and Events Mgt.
Liverpool John Moores University, Liverpool*

● **LOC CO-CHAIRMAN**

Dr. Aggelos Panayiotopoulos
*Department of International Tourism Mgt. and Events Mgt.
Liverpool John Moores University, Liverpool*

● **LOC SECRETARY**

Dr. Adekola Oluwadunsin

● **PUBLICITY SECRETARY**

Adeniji Yinka

● **LOGISTICS AND PROTOCOL**

**Adewale Adegbola. S
Salami Olalekan Michael**

● **WELFARE AND TRANSPORTATION**

Oluwaseyi Franklin

● **ICT**

**Dr. Tunde-Ajayi
Johnson Oladuni**

● **CONVENER**

Prof. Oladeji S. O.

● **CONFERENCE CHAIRMAN**

Dr Kehinde Abolarin
*Liverpool Business School,
Liverpool John Moores University, Liverpool*

● **PRESIDENT NECOR LTD., UK**

Prof. Farinloye Kolawole F.

● **LIASON OFFICER**

Dr. Olatunji Olalekan

WORLD ENVIRONMENTAL CONSERVATION CONFERENCE

9TH EDITION

THEME

CITIZEN SCIENCE AND SUSTAINABILITY PATHWAYS: BRIDGING RESTORATION ECOLOGY, CLIMATE ACTION AND POLICY FRAMEWORK

HYBRID

Liverpool John Moores University,
Liverpool, UK.

2nd- 5th November, 2026

9TH WORLD ENVIRONMENTAL CONSERVATION CONFERENCE (WECC 2026)

● INTRODUCTION

The increasing knowledge in Citizen Science is transforming the fields of conservation and environmental management. Citizen science allows participation of the general public, amateur or non-professional researchers from the fields of science, social science and other disciplines. The integration of advanced technologies such as artificial intelligence and big data analytics into Citizen Science Initiatives is gradually reshaping land capability classification, land use planning, monitoring and biodiversity conservation. These technologies offer opportunities for provision of real time data and predictive modeling to take climate actions and restoration of degraded ecosystem. Citizen science fosters sustainability and empowers people from all walks of life to contribute meaningfully to scientific research ranging from tracking biodiversity to monitoring environmental changes.

This scenario calls for serious attention through impartial economic research, integration of ideas, collaboration and practical engagement. Sustainability pathways is best channeled based on the determination and contributory actions from individuals, communities' educators, workers and families. The World Environmental Conservation Conference tends to create an enabling environment and veritable platform to spur meaningful engagements, discussions, dialogues and interactions among relevant stakeholders geared towards developmental strategies, roadmap and framework in tackling environmental issues that are being brought to the fore. This can only be achieved through inclusive, participatory, collaborative and multilateral commitments as epitomized in the theme and subthemes of the year 2026-WECC "Citizen Science and Sustainability Pathways: Bridging Restoration Ecology, Climate Action and Policy Framework.

Key words: Citizen science, Sustainability. Restoration ecology, Climate action, Policy framework

● SUB-THEMES

Original research papers are invited from interested participants in any of the following sub-themes

1. Circular economy & Sustainable Value Chains
2. Environmental Governance & Climate Policy
3. Inclusive Green Mobility: Universal Design in Climate Adaptation
4. Urban Restoration and Forestry Management
5. Invasive Species Control and Biodiversity
6. Indigenous Knowledge Systems in Conservation and Cultural Landscape
7. Digital Frontiers: AI, Remote sensing and GIS in Ecology
8. Citizen Science & Community –Led Restoration
9. Sustainable Hotel Engineering System and Facilities
10. Coastal Pollution and AI Technology

The conference is going to commence on the 2nd November, 2026 with registration of participants, opening ceremony and presentation of lead paper. Presentation of manuscripts will come up on 3rd and end on 5th November, 2026.

The **Capacity Training/Workshop on R-programme Language and Biodiversity Net Gain (BNG)** is free.

Field Trip: to a Museum and city centre. Interested participants in excursion/ field trip exercise will be exposed to fun filled recreation and relaxation

● CALL FOR PAPERS

Original research papers are invited from interested participants in any area of the above listed subthemes. All submitted papers will be published in the book of proceeding which will be available in both hard and soft copy on the organisation website.

● INSTRUCTION TO AUTHORS

Potential participants are encouraged to submit manuscripts for consideration. Participants will have the opportunity to present results of their research activities in an oral or poster sessions.

Abstract Submission Guideline:

- i. Name, affiliation and email address of the author (s)
- ii. Title of the paper.
- iii. Text in Times New Roman font size 12. The abstract must not exceed 300 words
- iv. Key words (Maximum Five)

All abstract must be submitted to the following email address: Electronic copy of the manuscript should be sent as attachment to **conference@netlinkenvironment.org** and copied **info@netlinkenvironment.org** and copied **info@necorng.org**

● GUIDELINES FOR MANUSCRIPT SUBMISSION

Prospective contributors are required to use the following guidelines in preparing their manuscripts:

1. Typed manuscript using double line spacing from the abstract to references
2. Font should be Times New Roman while font size of 12 should be used and be numbered consecutively and arranged in the following orders: Title page (containing paper title, Author(s) name(s) and their affiliation(s) with an indication of the corresponding authors, email/GSM No.). Abstract (not more than 300 words and containing about five key words: Introduction, Material and Methods, Results and Discussion, Conclusion, Acknowledgment if necessary) and References.
3. Reference must include Author(s) name(s), year of publication, title of paper, journal, volume and page numbers.
4. The Heading of each section should be bold and left justified. The text should begin on the next line after each heading
5. Manuscript may contain as many tables, figures and plates as possible, as long as the paper does not exceed twelve (12) pages. Tables and figures must be numbered consecutively given suitable caption and cited within text
6. Mathematical figures and formulae should be numbered consecutively within the text. uncommon and ambiguous symbols should be explained.
7. Use the International System of Unit (SI). Authors should also provide alternative units in parenthesis for the convenience of readers who are not verse in the SI Units

● FEES AND CHARGES

EARLY BIRD

Full registration (Physical)	£100
Early career researcher/ student (Physical)	£50
Members with the certificate of membership (Physical)	£75
Full registration (Virtual)	£70
Early career researcher/student (virtual)	£30
Members with certificate of membership (Virtual)	£50

LATE BIRD

Full registration (Physical)	£110
Early career researcher/ student (Physical)	£60
Members with the certificate of membership (Physical)	£85
Full registration (Virtual)-	£80
